PROJECTS -

Entra ID

- Creating Enterprise Application for migration
- Making a workflow for approval enterprise applications
- Managing B2B connections and Guest access
- Deploying stronger Authentication methods
- Deploying GSA for clients
- Implementation of Fortinet Enterprise Application for Seamless Sign-On

Intune

- Configure device restrictions policies within Intune for multiple clients within Focus Technology Group
- Deploy complex Win32 Apps for organization
- Setup Whiteglove Autopilot profiles and optimize deployment profiles on a hybrid environment.

Exchange Online

- Migration of large organization from on-prem Exchange Server to Exchange Online
- Migration of 2 Exchange Online tenants into 1 tenant.
- Setting up Email Protection for multiple clients, based upon clients requirement and enforcing modern email protocols for tighter control.

Sharepoint / Teams

- Migrate from on-prem file server to SharePoint / Teams
- Migration from Dropbox to SharePoint sites
- Creating a file structure and automating the process via Powershell PNP for creation of folders and using SharePoint Migration tool for migrating files / folders.
- Implementation of Sensitivity label on Sharepoint for data governance in respect to the new current lifecycle introduced by Microsoft Copilot.

Networking

- Decommissioning old legacy network routers and switches and migration to Unifi or Meraki network gear for a centralized management.
- Creating firewall rules and setting up SSID based permissions for clientele.
- Segmentation of network devices from point of Cyber security and CERTNZ
- Creating a site-to-site VPN and setting up SSL-VPN and IP-SEC with the help of SAML for SSO.

Virtualization

- Implementation of Hyper-V and Esxi for various clients.
- Creating on-prem DC and setting up AD, DNS and Group policy objects for Users and Device.
- Implementation of Hyper- V in a clustered environment for High Availability clusters. Clients with high 24*7 server automation requirements.

QUALIFICATIONS

Ness Wadia College of Commerce
Pune, India 2014-2018

Bachelor of Computer Applications

Southern Institute of Technology
Invercargill, New Zealand 2019-2020

Post Graduate Diploma in Information Technology
(Level 8)

TECHNICAL SKILLS

- Operating systems- Windows 8/10/11, Linux, Mac OS, Windows Servers 2012/2016/2022.
- Working with IT enterprise environments including cloud platforms.
- Microsoft Office 365, Microsoft Teams.
- Knowledge and experience of Microsoft Windows 11 operating system
- Knowledge of Server Virtualization VMware, Hyper-V, Esxi, Docker
- Web Technologies – PHP, HTML, WordPress
- Databases- PhpMyAdmin, MySQL
- ITSM - Service Now, JobTrack, ConnectWise Manage, Halo PSA
- Web Server- Apache, Mobile Web Server
- **Scripting:** Proficiency in scripting languages like PowerShell, can automate tasks and improve efficiency.
- **Microsoft Certification** - Endpoint Administrator Associate MD-102, Google Cloud OnBoard, MTA Networking Fundamentals, SC-500
- **Fortinet Certification** - NSE1

PERSONAL SKILLS

- Class 1 Full NZ driver's License
- **Team management:** Managed a team of 4 as the of accountability and sharing task based on individual skill set.
